Subject: RE: The Aquifer Exemption Process for the Arroyo Grande Oilfield, California

Hi Peter,

Here is a brief summary we wrote for our weekly report to Jared.

California Requests Expansion of Aquifer Exemptions: On February 8th, the CA Division of Oil, Gas, and Geothermal Resources (DOGGR) submitted to Region 9 a request to expand the boundaries of an existing aquifer exemption within the Arroyo Grande oil field in San Luis Obispo County. The package from DOGGR, with State Board concurrence, is the first of about 50 such requests that we expect the state to submit for new and expanded aquifer exemptions. These exemption requests, when approved, would allow for the continued injection of fluids for enhanced oil recovery and waste water disposal and are a key element of the state's efforts to return their Class II Underground Injection Control program into compliance with the Safe Drinking Water Act.

Deliberative Process 5

I am copying Mike on this email. He will be in the office if you need additional information today.

Thanks,

David

David, I'll check in with my folks so see what they know, but it will be helpful if you can provide us with some background on this one. Thanks, P. Grevatt

Subject: The Aquifer Exemption Process for the Arroyo Grande Oilfield, California

Dear Mr. Kobelski, Mr. Grevatt, and Mr. Beauvais,

Attached please find a letter from Maya Golden-Krasner of the Center for Biological Diversity regarding the Center's concerns about the EPA's aquifer exemption review for the Arroyo Grande Oilfield in San Luis Obispo County, California. The references cited in the letter follow via FedEx; you should receive them on February 12, 2016.

If there is anyone else at EPA that you believe we should contact about this aquifer exemption process, please forward this letter to them. Please don't hesitate to contact us if you have any questions.
